

ECLIPSE

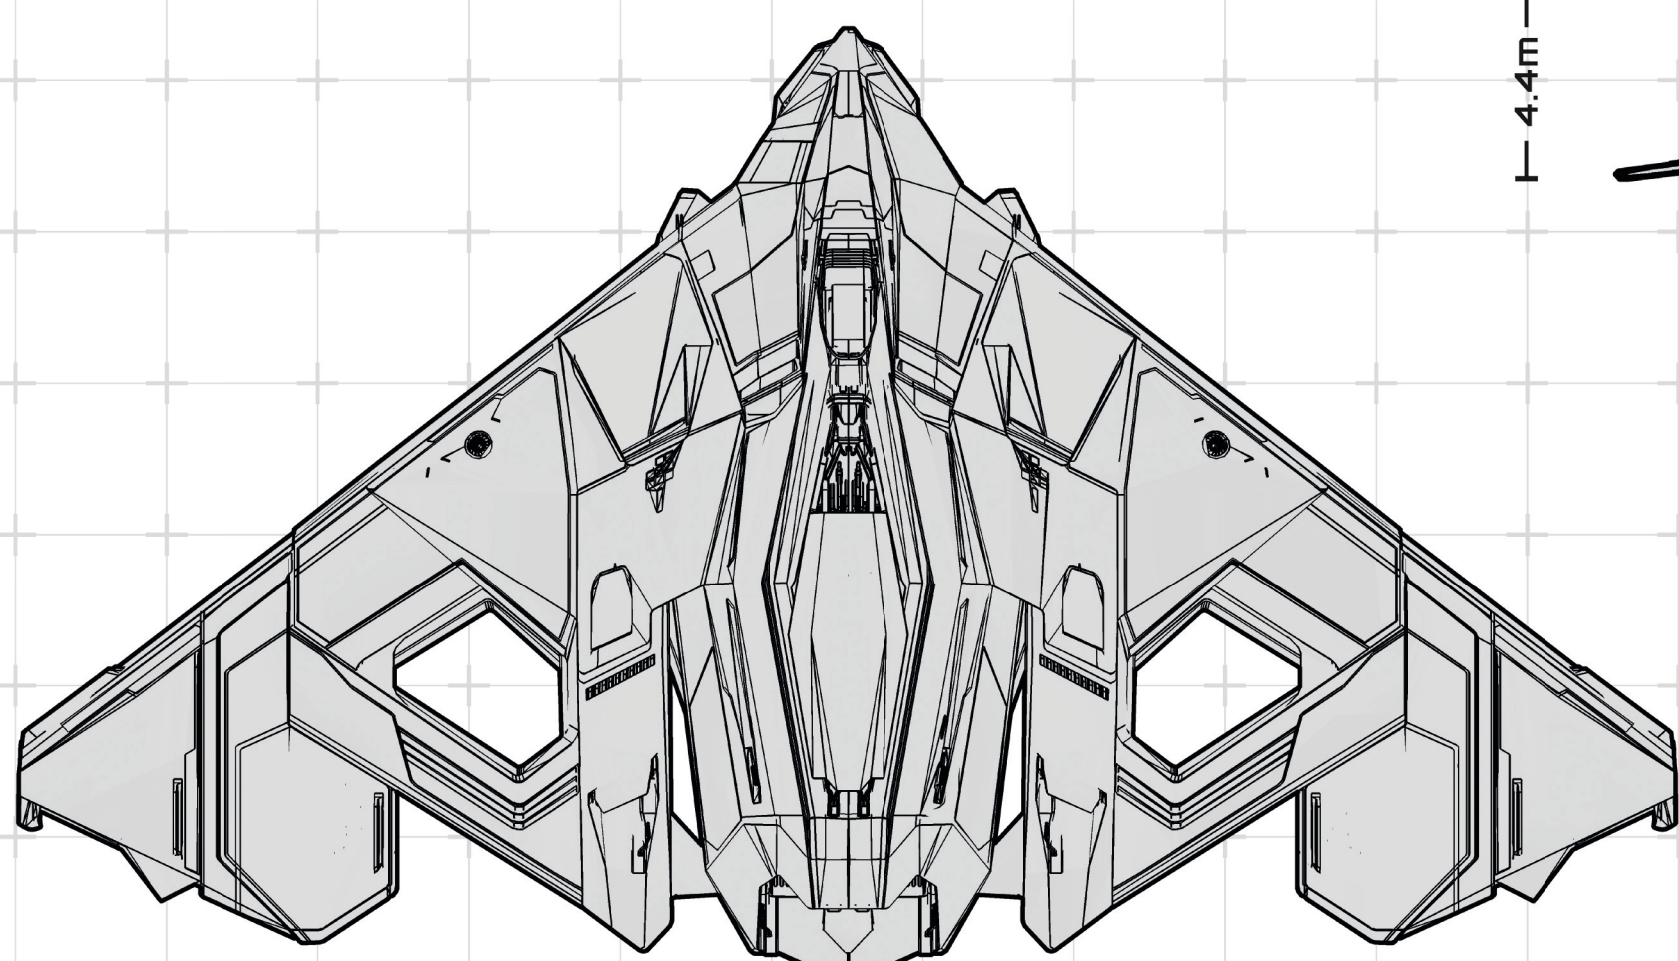

ATMOSPHERE > EXPANDED MODE

The wings of the Eclipse can fully expand and deploy smaller fins around its body to improve aerodynamics, which is most useful during atmospheric flight.

WEAPON AND DEFENSIVE SYSTEMS

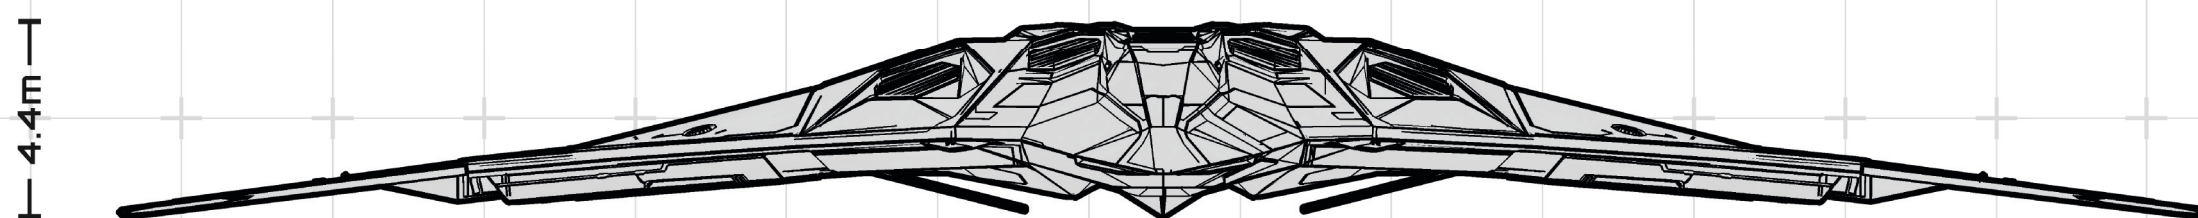

Armed with multiple torpedoes, the Eclipse is designed to get in quiet, hit hard and escape. In the event of direct engagement, an embedded ballistic gatling weapon system, light armor and small shields can provide enough of a deterrent for the ship to look for a quick escape.
