135c

Want to get the party started, or keep it going? Need to get your gear to a gig halfway across the system? Or maybe you just need to make a timely delivery and a statement at the same time. In any case, the 135c can get the job done with style and sophistication. Sporting increased cargo capacity, Origin's AIR system, and an ultra-modern finish, the 135c effortlessly blends form and function.

100i

Take touring the universe to the next level with the 100i, and feel perfect harmony between pilot, machine, and environment. The patented AIR fuel system will keep you flying smoothly on longdistance treks, while the innovative interior will get you there in total comfort, and the sleek, unmistakably Origin design assures that you'll turn heads, wherever you're going.

125a

When you're in the heat of battle, the last thing you should be worrying about is running out of fuel. In the 125a you'll never have to. With Origin's cutting-edge AIR system, a souped-up weapons package, and enhanced thrusters for increased speed, it's the obvious choice for the discerning maverick, looking to stay in the fight and outgun the competition.

ADAPTIVE INTAKE REFINERY (AIR)

Each 100 series model comes equipped with our patented AIR (Adaptive Intake Refinery) fuel system. This cutting-edge technology allows the ship to extract an unprecedented variety of gases from space or atmosphere and convert the raw material into usable plasma, making the 100 series the most efficient and eco-friendly ships on the market.
