

CYCLONE

MODEL BASE

FRONT THREE- QUARTER PERSPECTIVE

Embedded jump-jets apply bursts of counter-thrust to provide safer landings on longer jumps.

The baseline model of the Cyclone features an open flatbed in the back where cargo pieces can be safely secured and transported, making it a perfect transport for homesteads or as a short-range vehicle for planetary deliveries.

X-TEC tires feature cutting-edge segmented plate treads, providing maximum traction on a variety of surfaces.

The Cyclone utilizes the same lightweight composite armor technology as Tumbril's military vehicles.

Tumbril's innovative new independent suspension design provides speed and comfort for the Cyclone across all kinds of terrain.

SIDE VIEW

Operator seats keep you comfortable and safe despite high speeds or hard cornering.
