

CYCLONE

MODEL RC

FRONT THREE- QUARTER PERSPECTIVE

Embedded jump-jets apply bursts of counter-thrust to provide safer landings on longer jumps.

For those who like to push the limits of speed, the Cyclone RC features a modified intake system to allow for controlled bursts of speed as well as tools to customize handling.

X-TEC tires feature cutting-edge segmented plate treads, providing maximum traction on a variety of surfaces.

Modified intake system

The Cyclone utilizes the same lightweight composite armor technology as Tumbril's military vehicles.

Tumbril's innovative new independent suspension design provides speed and comfort for the Cyclone across all kinds of terrain.

SIDE VIEW

Operator seats keep you comfortable and safe despite high speeds or hard cornering.
